Cotton Hill Produces First Local Movie Review Podcast

(Albany, NY) Cotton Hill Studios, Inc. recently teamed up with October Eve Music Group's Rick Bedrosian to produce a new movie review podcast called "Rick's Picks". Rick's Picks is the first Tech Valley podcast of this type. The show consists of humorous movie reviews written and voiced by Rick, an Albany native and leader of the Irish band, Hair of the Dog. Each week new movies will be reviewed and new episodes will be released.

"Because there are so few podcasts produced in Tech Valley, we are excited to offer the first movie review podcast that has a local Capital District spin," Ray Rettig, president of Cotton Hill said. "We're hoping to get more people interested in podcasting by producing something that is humorous, informative, and released weekly," Rettig said.
